

Portable Ozone Generator for Air Purification

This portable ozone generator is designed for disinfecting and deodorizing enclosed spaces. It features a compact design with a carrying handle for easy transport and placement.

Overview

Professional Air Purification

This portable ozone generator is engineered for effective disinfection and deodorization of enclosed spaces. Utilizing advanced electrical discharge technology, it converts oxygen into ozone to neutralize bacteria, viruses, and stubborn odors. Its compact, transportable design makes it an ideal solution for kitchens, bathrooms, and storage areas requiring consistent air quality management.

Technical Specifications

Operating Principle	Electrical discharge (O2 to O3 conversion)
Portability	Compact Design, Carrying Handle, Portable
Power Source	Standard electrical cord

Control & Safety

Control Features

- Adjustable ozone output levels
- Timer settings for automated operation

Safety Mechanisms	Yes
-------------------	-----

Applications

Recommended Usage Areas

Kitchens • Bathrooms • Storage Rooms
