

# Portable Passive Radiator Speaker

This portable speaker features an integrated passive radiator. The speaker has a simple design and comes in black.

## Product Overview

### Compact Passive Radiator Speaker

The ER1066 is a portable integrated passive radiator speaker designed with a minimalist 'glasses box' aesthetic. Its sleek black finish and streamlined form factor make it an elegant, unobtrusive addition to any professional workspace. Equipped with convenient top-mounted bass boost and volume controls, it offers intuitive operation for mobile or desktop audio needs.
