Overview

Heavy-Duty Portable Pipe Threading Machine

This portable pipe threading machine delivers heavy-duty performance for professional plumbing and industrial applications. Equipped with a powerful 1500W universal motor and an integral self-priming oiling system, it ensures precision and efficiency for both BSPT and NPT pipe threading. The design includes a self-centering, full-floating cutter and a five-flute cone reamer to provide clean, accurate results on pipes from 1/2" to 2".

Capacity

1/2" - 2"

Compliance

CE

Model Variants

Configuration Table

Code	Voltage	Thread Type	Die Opening
50C20	220V	BSPT	Self-opening
50C22	220V	BSPT	Quick-opening
50C25	220V	NPT	Self-opening
50C27	220V	NPT	Quick-opening
50C10	110V	NPT	Self-opening
50C12	110V	NPT	Quick-opening

Equipment & Accessories

Standard Equipment

- 1 Die Head 1/2"-2"
- HSS Dies sets (1/2"-3/4")
- HSS Dies sets (1"-2")
- 4 Support Legs
- Cutting Oil
- Cutting Oil Canister
- Mounting Tools

Optional Accessories

- Folding Wheel Stand (50C30)
- Nipple Chuck Kit BSPT (50C40)
- Nipple Chuck Kit NPT (50C41)
