

Portable Power Bank for Mobile Devices

This compact power bank utilizes a lithium battery to efficiently charge mobile devices. Its sleek design incorporates LED indicators to display the remaining battery level.

Product Overview

Compact Power Solution

This portable power bank is engineered for reliable, on-the-go charging for mobile devices. Featuring a sleek, compact design with a distinctive red casing, it is an ideal accessory for maintaining battery life during travel or daily commutes. The unit includes integrated LED indicators to provide clear, real-time feedback on remaining battery levels.

Technical Specifications

Battery Chemistry	Lithium
Model Number	12509-84A-RED

Features

Primary Application	Mobile Charging • On-the-go Power
Design Features	Compact, Portable, Red Casing, LED Indicators
