Overview

Compact and portable design with integrated handle for easy transport.

Versatile Portable Power Solution

This multifunctional portable power station is designed to keep your essential electronics running during power outages or outdoor adventures. With a high-capacity lithium battery, it provides reliable AC, DC, and USB power output for devices ranging from smartphones and laptops to small home appliances. Its compact, durable design makes it an ideal companion for camping, hiking, and emergency backup situations.

Technical Specifications

PRODUCT DESCRIPTION

ENERGY STORAGE CABINET

Karval

Engineered with efficient ventilation and clear interface for power management.

Battery Capacity

48000 mAh
Capacity

178 Wh
Energy

Dimensions	186 x 110 x 147 mm
Weight	1.7 kg
Casing Material	ABS+PC

Power & Output

Output Ports

Type	Specification
DC Output	3x 9~12.6V/10A
USB Output	2x 5V/2A, 5V/1A

Fully Charged Time	8-9 hours (DC)
DC Input	15V/2.0A (Solar: 13V-22V/2.0A)

Safety & Compliance

CHARACTERISTIC

Built with advanced safety technology and multiple output options for versatile charging.

Safety Protections	Short-circuit protection, Over-current protection, Over-voltage protection, Low-voltage protection, Over-load protection, Over-temperature protection
