

Portable Rebar Cutter

This portable rebar cutter is designed for cutting steel reinforcing bars on construction sites. It features a heavy-duty cutting blade enclosed in a protective guard and a wheeled design for maneuverability.

Product Overview

Professional Grade Rebar Cutting

The CNGQ40 is a robust and portable rebar cutter engineered for demanding construction environments. Designed for efficiency and operator safety, this machine features a heavy-duty cutting blade enclosed within a protective guard. Its wheeled design and sturdy frame ensure both stability during operation and easy maneuverability across busy job sites.

Cutting Capacity

Plain Carbon Steel Capacity	40 mm
II-Grade Deformed Steel Capacity	32 mm

Performance Metrics

Cutting Frequency

32 times/min

Shock Cutting Frequency

Technical Specifications

Motor Power	3 kW
Voltage	380 V
Motor Rotation Speed	2880 r/min

Physical Dimensions

Total Weight	394 kg
Dimensions (L x W x H)	1170 x 420 x 640 mm
