Overview

Versatile Emergency Lighting

This portable rechargeable LED emergency light is engineered for reliable illumination in diverse environments, from emergency backup to outdoor camping. Featuring high-efficiency SMD LED technology, it delivers bright output with low power consumption. Its compact, lightweight design includes an integrated handle for maximum portability, while the durable construction ensures performance in demanding conditions.

Technical Specifications

Power Consumption	6 W
Light Source	60 SMD LEDs
Light Output	2600 lumens

Battery & Power

Battery Capacity	2600 mAh
Rechargeable	Yes

Logistics

Packaging	30 pieces per carton
