Product Overview

Versatile Multi-Function Searchlight

This portable searchlight is designed for reliability in both professional and outdoor settings, featuring a high-intensity LED front spotlight and a convenient COB side light for area illumination. Engineered for sustainability and ease of use, it incorporates an integrated solar panel for independent recharging alongside standard AC power support. Its ergonomic, durable construction makes it an ideal solution for emergency situations, camping, or field operations requiring flexible, long-lasting light sources.

Technical Specifications

Model Number	TGX-9009
Power Output	4 W
Brightness	250 LM
AC Input	100-240V 50/60Hz

Battery & Charging

Battery Capacity	3000 mAh
Battery Type	Lead-acid
Full Charge Time	10 H

Performance Metrics

Lighting Runtime

4 H Strong Light	10 H Low Light	6 H Side Light
