

Portable Reflective Safety Triangle

This is a portable reflective safety triangle designed for roadside use. It features a red border, white reflective center with a red exclamation point, and a black metal frame for stability.

Product Overview

Portable Reflective Safety Triangle

The WT103 Portable Reflective Safety Triangle is an essential emergency tool designed to ensure visibility during roadside breakdowns or accidents. Featuring a high-contrast design with a reflective center, it effectively warns oncoming traffic to maintain safety. The robust metal frame provides excellent stability, allowing the unit to remain upright even in windy conditions.
