

Portable Refrigeration and Ventilation Unit with Adjustable Stand

This portable unit provides both refrigeration and ventilation. It features an adjustable stand, a fan enclosed within a protective grill, and a control panel.

Product Overview

Professional Portable Climate Control

This portable unit provides efficient refrigeration and ventilation solutions for industrial and commercial workspaces. Designed for versatility, it features an adjustable stand that allows for optimized airflow positioning. The integrated control panel ensures ease of use for rapid temperature and ventilation management.

Technical Specifications

Operational Modes

Refrigeration • Ventilation

Model Identifier

HL-14

Key Features

Portable, Adjustable Stand, Protective Grill, Dual-Function
