Product Overview

Versatile Portable Illumination

This 6-in-1 portable solar pocket lamp is designed for professional and emergency use, featuring a robust PC housing and a high-efficiency 10W LED light source. It offers multiple lighting modes including dimming settings and an emergency SOS function, with added red and blue alarm lights for safety. Equipped with an integrated solar panel and a 4000mAh battery, it doubles as a power bank for mobile devices, making it an essential tool for field work, camping, and emergency response.
