

Portable Stereo Speaker with 3.5mm Audio Jack

This is a compact portable stereo speaker with dual drivers. It includes a 3.5mm audio jack and an integrated power indicator for enhanced audio output from mobile devices and laptops.

Product Overview

Compact Audio Enhancement

This portable stereo speaker is engineered to provide an immediate audio upgrade for your mobile devices and laptops. Featuring a high-quality 3.5mm audio jack for reliable, wired connectivity, it eliminates the latency often found in wireless solutions. The compact dual-driver design ensures clear sound reproduction in a form factor built for professional travel and office use.
