

Portable Trolley Speaker with Bluetooth and LED Lighting

This portable trolley speaker is designed for versatile audio applications. It features a large speaker driver for powerful sound output, integrated control panel with input options including USB, SD card, and AUX, and Bluetooth connectivity for wireless audio streaming.

Product Overview

Professional Portable Audio Solution

This versatile trolley speaker is engineered for high-performance audio delivery in various event settings. Featuring a 120W output and a robust 15-inch driver, it ensures clear, powerful sound coverage. The integrated trolley design and rechargeable battery provide excellent mobility, while multi-source connectivity options make it a reliable choice for professional use.
