Product Overview

High-Performance Portable Inflation

This heavy-duty twin-cylinder air compressor is engineered for rapid inflation and reliable performance in demanding environments. Designed for portability and efficiency, it features a robust construction suitable for roadside emergencies, outdoor activities, and professional use. With a 60-minute duty cycle and high-pressure capacity, it provides a dependable solution for maintaining tire pressure and inflating equipment on the go.

Performance Metrics

Power Supply	DC 12V/24V
Rated Current	50 A
Maximum Pressure	150 PSI
Max Duty Cycle	60 minutes

Technical Specifications

Cylinder Configuration	Twin-cylinder (2 x 40mm)
Air Hose Length	0.25m (primary) + 7.5m (extension)
Power Cord Length	1.8 m

Logistics & Dimensions

Packing Details

Metric	Value
Packing Size	36 x 30.5 x 53.5 cm
Units per Carton	2 pcs
Container Load (20')	1000 pcs

Product Dimensions	35 x 30 x 26 cm
Net Weight	5.9 kg
Packaging Type	Carrying Bag, Gift Box
