

# Portable Twin-Cylinder Air Compressor

This robust air compressor is designed for industrial and commercial use. Its twin-cylinder pump delivers high performance, and it features a durable air tank, pressure gauge, and safety valve for reliable operation.

## Product Overview

### High-Performance Portable Air Compression

The HS-4.5/6 is a robust and portable air compressor engineered for demanding industrial and commercial environments. Featuring a high-efficiency twin-cylinder pump, this unit ensures consistent air delivery for a wide range of pneumatic tools and equipment. Its compact footprint, combined with sturdy integrated wheels, allows for seamless maneuverability across job sites without sacrificing power or reliability.

## Technical Specifications

Pump Configuration	Twin-Cylinder
Power Source	Electric Motor

## Features & Safety

### Safety & Control

- Integrated Pressure Gauge
- Safety Valve

### Mobility

Sturdy Wheels • Easy Maneuverability

Key Features	Portable, Twin-Cylinder, Compact Design, Industrial Grade
