

# Portable Vehicle Humidifier

This portable humidifier is designed for vehicle use. It features a lightweight design and utilizes a 1.7MHz atomizer with a glass glaze coating for scale resistance.

## ADDITIONAL IMAGES

## Product Overview

### Compact Humidification Solution

The SK7303 is a portable and lightweight humidifier engineered for confined environments like vehicles or small personal spaces. Featuring a versatile no-box design, it allows for the use of various beverage bottles as water tanks, enhancing portability. With advanced atomization technology and built-in safety features like automatic shut-off during water shortages, it provides a reliable and efficient way to maintain optimal air quality.

## Technical Specifications

Model Number	SK7303
Rated Power	12 W
Rated Voltage	100V~240V
Rated Frequency	50Hz~60Hz

## Performance Metrics

### Performance Overview

<b>80 ml/h</b> Max Mist Output	<b>0.45 L</b> Water Tank Capacity	<b>6 m3</b> Max Using Space
