

Portable Water Pump

This robust water pump is designed for a variety of applications. It features cooling fins for efficient heat dissipation and is suitable for residential, agricultural, and industrial water pumping needs.

1ZDB35

Product Overview

Robust Portable Water Solution

The 1ZDB35 is a robust and reliable water pump designed for versatile applications across residential, agricultural, and industrial sectors. It features a durable construction with a specialized teal-colored housing and a black motor enclosure designed for longevity. Equipped with a convenient red handle, this pump offers excellent portability for on-site water management needs.

Design & Construction

Portability

Integrated Carry Handle • Compact Design

Housing Components

- Teal-colored pump housing
- Black motor enclosure
- Heavy-duty red handle

Cooling System

Integrated cooling fins for efficient heat dissipation

Performance

Model Series

1ZDB35

Applications

Primary Use Cases

- General water pumping
- Irrigation
- Industrial fluid management

Target Applications

Residential, Agricultural, Industrial
