

Portable Water Pump with 40.2cc Displacement

This water pump is a robust solution for drainage and irrigation. It has a discharging capacity of 40.2cc and a standard power output of 1.45kw at 7000r/min.

Overview

Robust Portable Pumping Solution

This portable water pump is designed for efficiency and mobility, featuring a reliable 2-stroke gasoline engine. It provides high performance for drainage and irrigation tasks in various settings. Its compact design ensures easy handling, while the robust engineering guarantees consistent output for professional needs.
