Overview

Versatile Portable Water Pump

This portable water pump is engineered for efficient water transfer across demanding applications, including irrigation, construction, and emergency water removal. Featuring a robust engine and durable pump housing, the unit is self-priming and capable of handling solids for reliable performance. Its compact design combined with a sturdy frame provides the stability required for operation while ensuring easy transport between sites.

Performance Metrics

Key Operational Features

- Self-priming capability
- Handles solids
- Robust engine
- Durable pump housing

Flow Rate Capacity

50L, 80L, 100L

Applications

Suitable Applications

Irrigation • Construction • Emergency Water Removal
