Overview

DSHD-200 Portable Water Well Drilling Rig

The DSHD-200 is a robust, portable drilling solution engineered for efficient water well construction and geological exploration. Designed for versatility, this rig handles various drilling conditions, from loose rocks to hard bedrocks. Its compact footprint ensures easy transportation and rapid setup in diverse terrains, while the powerful hydraulic system and high-torque motor deliver reliable, high-performance drilling results.

Drilling Performance

Key Performance Metrics

100 rpm

Max Slewing Speed

4000 Nm

Max Slewing Torque

Drilling Hole Diameter	300 mm
Max. Drilling Depth	300 m
Drilling Mode	Down-the-hole hammer drilling

Air System

Working Air Pressure	3 Mpa
Air Consumption	11-35 cubm
Hammer Compatibility	Medium/high air pressure series

Physical Dimensions

Overall Dimensions (L x W x H)	3650 x 1850 x 2358 mm
Propelling Range	2410 mm

Drill Pipe Specifications

Drill Pipe Diameter	76 mm, 89 mm
Drill Pipe Length	2 m

Operating Conditions

Suitable Terrain

Loose rocks • Bed rocks
