

Portable Work Light with Protective Cage

This portable work light is equipped with a protective metal cage and a yellow plastic handle. It includes a standard power plug and a black power cord, making it suitable for providing illumination in diverse work environments.

Product Overview

Professional Portable Illumination

This portable work light is engineered to provide reliable, high-visibility illumination for demanding work environments. Featuring a robust protective metal cage, it ensures durability against accidental impacts while maintaining a lightweight, easy-to-handle design. The integrated hanging hook and ergonomic handle make it an ideal solution for construction sites, workshops, and maintenance tasks where flexible positioning is essential.
