

Positive Displacement Oil Pump

This positive displacement oil pump is designed for lubrication or fluid transfer applications. It features a robust cast iron housing, precision-machined gears, and barbed hose fittings for secure connections.

Product Overview

Robust Fluid Transfer Solution

This positive displacement oil pump is engineered for reliable lubrication and fluid transfer tasks. Featuring a durable cast iron housing and precision-machined gears, it is built to withstand demanding operational conditions. The unit includes secure barbed hose fittings, making it a versatile and dependable choice for automotive, industrial, and agricultural machinery.

Construction & Design

Housing Material	Cast Iron
Key Components	Precision-machined gears, Barbed hose fittings

Compatibility & Use

Suitable Applications

- Automotive machinery
- Industrial equipment
- Agricultural machinery
- General lubrication systems
