

Poultry Feed Mixer 1000 kg Batch Capacity

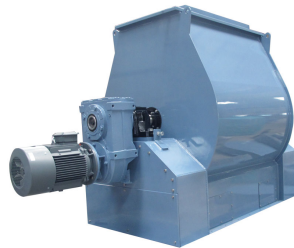

This poultry feed mixer is applicable for manufacturing plants and farms. It boasts a 1000 kg per batch capacity and ensures high mixing uniformity.

ADDITIONAL IMAGES

Product Overview

Robust feed mixer featuring a large mixing chamber and powerful motor for uniform ingredient blending.

High-Efficiency Poultry Feed Mixer

This industrial-grade mixer is designed for rapid and uniform blending of poultry feed ingredients, achieving high mixing uniformity with a short cycle time of 3-5 minutes. Built with safety and durability in mind, it features a robust construction suitable for manufacturing plants and farms. The system includes a liquid addition capability and bottom discharge mechanism to minimize residual material, ensuring consistent feed quality and operational efficiency.

Technical Specifications

Horizontal ribbon mixer design utilizing stainless steel for hygiene and durability in feed production lines.

Core Components

- PLC
- Gear
- Gearbox
- Motor
- Bearing
- Engine
- Pressure vessel
- Pump

Dimensions	2555mm x 1895mm x 1856mm
Total Weight	2250 kg
Supported Voltage	220V, 380V, 440V
Materials	Carbon Steel, Stainless Steel

Compliance & Service

Certifications

CE • ISO

Available Support

- Video technical support
- Online support
- Spare parts
- Field maintenance and repair
- Field installation and commissioning

Warranty	2 Year
