Overview

Complete Poultry Feed Solution

This poultry feed production line is a comprehensive system designed for efficient and reliable feed manufacturing. Capable of producing 1-2 tons of high-quality feed per hour, it is an ideal solution for small to medium-sized poultry farms and feed mills. The integrated system streamlines the entire process, from initial grinding and mixing to final pelletizing, cooling, and packaging.

Performance

Production Capacity

1 Tons/Hour
Minimum Capacity

2 Tons/Hour
Maximum Capacity

System Components

Included Machinery

- Hammer Mill (Grinder)
- Feed Mixer
- Feed Pellet Machine
- Feed Cooler
- Dust Collector
- Packaging Machine

Process Flow

Production Workflow

Step	Function
Grinding	Hammer mill processes grains
Mixing	Blends ingredients
Pelletizing	Forms feed pellets
Cooling	Reduces temperature and moisture
Packaging	Bags pellets for storage/transport

Operational Features

Best Suited For

Small Farms, Medium Farms, Feed Mills, Agricultural Settings
