

Poultry House Ventilation Fan

These ventilation fans are designed for use in poultry houses. They are available in 24-inch, 36-inch, and 50-inch sizes.

Our Main Ventilation Fans

Product Overview

High-Efficiency Poultry House Ventilation

Designed specifically for agricultural environments, these industrial-grade exhaust fans deliver superior air circulation and total pressure performance. Built with durable materials including galvanized zinc plates and stainless steel blades, they ensure long service life and reliability. Each unit undergoes rigorous testing for noise, vibration, and wind capacity to meet high industry standards.

Available Sizes

24 inch, 36 inch, 50 inch

Construction & Materials

Materials Used

- Galvanized zinc plate frame (environment friendly)
- Aluminum magnesium alloy hub
- Stainless steel blade

Key Components

- Imported bearings (high-strength, low noise)
- Special push-pull shutter device
- Europe industry standard motor
