

# Powdered Sugar Shaker with Fine Mesh

This stainless steel powdered sugar shaker is designed for dusting pastries and desserts. It features a fine mesh screen for even distribution and durable construction.

## Product Overview

### Professional Culinary Tool

This stainless steel powdered sugar shaker is designed for precision and consistency in professional kitchens and home baking environments. Featuring a high-quality fine mesh screen, it ensures an even, delicate distribution of powdered sugar or cocoa powder over pastries and desserts. Its durable stainless steel construction makes it a long-lasting essential for any culinary professional.

## Technical Specifications
