

Power Screwdriver

This is an electric screwdriver. It is used to drive screws with power assistance.

Product Overview

High-Precision Automatic Screwdriver

This full automatic electric screwdriver is engineered for high-speed, precision assembly tasks. Featuring stepless adjustable speed and torque settings, it allows for fine-tuned control during operation. The unit is designed to stop automatically once the screw is fully fastened, effectively preventing screw damage and ensuring consistent quality. Its ergonomic, rubber-coated handle is built for comfort, significantly reducing operator fatigue during extended use.
