

Power Steering Rack and Pinion Assembly for Myvi

This power steering rack and pinion assembly is designed for Myvi vehicles. It provides hydraulic assistance to reduce steering effort, improving vehicle maneuverability.

Product Overview

High-Performance Steering Solution

This power steering rack and pinion assembly is specifically engineered for Myvi vehicles to deliver reliable hydraulic assistance. The design prioritizes ease of maneuverability and precise steering response, ensuring optimal control across diverse driving conditions. Built from high-strength materials, this unit offers enhanced durability and long-term performance for demanding automotive applications.

Technical Details

Included Components

- Tie rod ends
- Protective boots
- Hydraulic connection lines

Features

Hydraulic Assistance, High-Strength Construction, Precise Response

Vehicle Compatibility

Myvi
