

Power Steering Rack for Audi A4 B6 (2001-2005)

This power steering rack is designed for Audi A4 B6 models from 2001-2005. It is constructed with a robust rack body and steering gear housing, including protective rubber boots and mounting brackets.

Product Overview

Precision Steering Solution

This power steering rack is specifically engineered for the Audi A4 B6 (Type 8E/8H) produced between 2001 and 2005. Designed for durability and performance, the unit features a robust construction with protective corrugated rubber boots to shield internal components from debris. It serves as a reliable replacement component to restore precise steering handling and responsiveness.
