

Power Tool Carbon Brush

Replacement carbon brushes for power tools. These brushes provide reliable electrical contact and ensure optimal motor performance.

Product Overview

Reliable Motor Performance

These replacement carbon brushes are engineered to deliver consistent electrical contact, ensuring optimal performance for your power tools. Built with a durable carbon composition, they are designed for an extended operational lifespan. Each unit comes complete with the necessary spring and connector, facilitating a straightforward and quick installation process.

Technical Details

Included Components

- Carbon Brush
- Spring
- Connector

Model Identifier

999021

Compatibility

Power Tools
