Overview

Professional Powered Rotary Forming Machine

This industrial-grade powered sheet metal rotary forming machine is engineered for high-precision shaping, beading, and curving. It features a heavy-gauge steel construction and a robust electric motor, controlled via a convenient foot pedal to allow for hands-free operation and maximum control. With its adjustable throat and included die sets, it is an essential tool for efficient metal fabrication in professional workshop environments.

Technical Specifications

Motor Power

180 W
Power

220 V
Voltage

50 Hz
Frequency

Roller Speed	14 RPM
Throat Depth	395 mm
Capacity	1 mm / 20 ga

Dimensions and Weight

Machine Dimensions (LxWxH)	880 x 260 x 1280 mm
Net Weight	48 kg

Features

Included Die Sets

- 4 mm / 5/32"
- 6 mm / 1/4"
- 9 mm / 3/8"
- 12 mm / 15/32"
- 15 mm / 19/32"
- Wiring Mandrel Set

Product Highlights

Heavy Gauge Steel, Adjustable Guide Fence, Foot Pedal Control, Micro-Adjustment Precision, Sturdy Floor Stand
