

# Pozi-Drive Waxed Chipboard Screw

These pozi-drive chipboard screws are designed for secure fastening in wood and particle-board. A waxed coating minimizes driving torque and prevents corrosion.

## Product Overview

### High-Performance Pozi-Drive Chipboard Screws

These professional-grade chipboard screws are engineered for efficient fastening in wood and particleboard applications. Featuring a specialized thread pattern, they ensure optimal grip while minimizing material splitting during installation. The inclusion of a high-quality waxed coating significantly reduces driving torque, allowing for faster and smoother assembly in diverse woodworking projects.

## Technical Specifications
