

Precision Engineered Metal Component

This precision-engineered metallic component has specific dimensions. It incorporates an M3 left-hand thread and comes in multiple sizes.

Overview

Precision Engineered Component

This precision-engineered metal component is designed for high-accuracy applications requiring specific dimensional tolerances. Featuring a robust cylindrical design with an M3 left-hand thread, it ensures reliable integration into complex assemblies. The component is available in a versatile range of sizes to suit diverse engineering requirements.

Dimensions

Overall Length	25 mm
Cylindrical Diameter	5 mm
Feature Size	3 mm

Technical Specifications

Available Lengths

Size Code	Length (mm)
A	10
B	11
C	13
D	15
E	20
F	25
G	35

Thread Specification	M3 Left-Hand
