

# Precision Machinery Screw KG7-M7169-00X

[Angelina@reliablesmt.com](mailto:Angelina@reliablesmt.com)

This precision screw is designed for specialized machinery applications. It provides secure and reliable fastening in various equipment.

## Product Overview

### Precision Engineering Component

This high-precision screw component is designed for demanding industrial machinery applications. It is an original, new part manufactured to meet stringent quality standards for secure and reliable fastening. Engineered for compatibility with specific automated equipment, it ensures optimal performance and mechanical durability in complex assemblies.

## Product Details

### Condition

Original • New

### Part Number

KG7-M7169-00X

### Cross Reference

5322 502 60165

## Related Components

### Associated Equipment

- Main Stopper Cylinder
- Leaf Spring
- CCD Camera Assembly
- Valve
- Sensor Head Assembly
- Piston
- Glass Plate Adjustment
