

Precision Wire Stripping Pliers

These professional wire stripping pliers are designed for precision work. They feature AWG and MM markings for accurate wire selection and include a safety lock and ergonomic handles.

Product Overview

Precision Wire Stripping Pliers

These professional-grade wire stripping pliers are engineered for high-accuracy electrical work. Featuring clearly marked stripping holes for both AWG and metric wire sizes, the tool ensures reliable performance and precise wire preparation. Designed with ergonomic handles and a safety lock mechanism, it provides both comfort and security during repetitive tasks.
