Product Overview

Smart Energy Management

The Prepaid IC Card Energy Meter provides a robust solution for electricity consumption management in residential and commercial settings. It works seamlessly with a computer vending management system to allow users to purchase electricity in advance, ensuring efficient power usage. The device features integrated IC card technology for secure transactions, automatic cut-off alerts, and the ability to freeze accounts in case of lost cards.

Technical Specifications

Performance Metrics

3600 imp/kWh
Impulse Rate

Rated Voltage	220 V
Operating Frequency	50 Hz
Current Rating	5(60)A, 1(2)A

Features

Core Features

- Integrated IC card payment system
- Automatic power cut-off for low balance
- Account freezing for lost cards
- Programmable alarm power threshold
- Maximum power limit enforcement
