Overview

Professional Price Computing Scale

Designed for retail environments, shops, and supermarkets, this price computing scale offers high-precision weighing with a dual LCD display for clear visibility of weight, unit price, and total price. It features a rugged ABS housing with a removable stainless steel platform for easy sanitation and maintenance. With support for up to 265 PLUs and connectivity for external label printers, it streamlines checkout processes and inventory management.

Technical Specifications

Load Cell Type	Single point Aluminum
System Resolution	1/7,500
Units of Measure	kg, lb, oz
Operating Temperature	0°C to 40°C (32°F to 104°F)

Display & Interface

Keypad

- 20 keys total
- On/off/exit
- Clear
- Enter
- Tare
- Zero
- Print
- Save
- Unit
- RC.PLU
- ST.PLU
- 0-9 digital keys

Display Type

6-digit, 0.56" (14.2mm) Backlit LCD

Power & Connectivity

Power Supply

- 12VDC 500mA adapter
- 6V 4Ah rechargeable battery

Serial Port

RS232

Physical Dimensions

Platform Dimensions

297mm x 227mm (11.69" x 8.94")

Packing Information

720mm x 400mm x 345mm (4pcs/ctn), G.W.: 21kg, N.W.: 19kg

Functional Features

Available Options

- RS232 cable
- Real Time clock
- External label printer (Argox OS-2130D)

PLU Memory

265 PLUs

PLU Data Fields

Trade name, Ingredients, Life, Unit, Unit price, Tare weight

Model Comparison

Capacity & Model Specifications

Model	Capacity (Metric)	Capacity (Imperial)
EHC-PM-3	0-1.5kg x 0.5g / 1.5-3kg x 1g	0-3lb x 0.001lb / 3-6lb x 0.002lb
EHC-PM-6	0-3kg x 1g / 3-6kg x 2g	0-6lb x 0.002lb / 6-15lb x 0.005lb
EHC-PM-15	0-6kg x 2g / 6-15kg x 5g	0-15lb x 0.005lb / 15-30lb x 0.01lb
EHC-PM-30	0-15kg x 5g / 15-30kg x 10g	0-30lb x 0.01lb / 30-60lb x 0.02lb
