

# Price Computing Scale with Stainless Steel Platform

This price computing scale is a reliable weighing solution for commercial environments. Its stainless steel construction provides durability, and the waterproof keyboard enhances usability.

## ADDITIONAL IMAGES

## Product Overview

### Professional Computing Platform Scale

Designed for heavy-duty commercial environments, this price-computing platform scale features a robust stainless steel construction. It is engineered to perform reliably in demanding settings such as wet or dusty areas. Equipped with a waterproof keyboard and high-precision strain gauge technology, it ensures rapid and accurate weight measurement and transaction calculations.

## Technical Specifications

### Display Graduation

- 50g
- 100g

### Weight Capacity Options

100kg, 150kg, 200kg, 300kg

### Power Supply

DC6V / 500mA adapter

## Performance Features

### Key Performance Indicators

**2 count**

LCD Displays

### Key Features

Waterproof Keyboard • Stainless Steel Construction • Backlight Display • High-Precision Strain Gauge
