

Privacy Screen Protector Film

This screen protector film is designed for mobile phones. It shields the screen from scratches, fingerprints, and smudges while also providing privacy by limiting the viewing angle.

Product Overview

Professional Privacy Protection

This high-quality anti-peep screen protector film is engineered for mobile devices, providing essential privacy by narrowing the viewing angle to prevent unauthorized viewing. Beyond its privacy capabilities, the film acts as a durable shield against scratches, fingerprints, and smudges, maintaining the pristine condition of your display. It is designed to preserve full touch screen sensitivity and visual clarity, ensuring that security never comes at the cost of usability.
