

Professional Amplifier with Integrated DVD Player

This professional amplifier comes with an integrated DVD player. It provides comprehensive audio control via master volume, treble, and individual microphone input adjustments.

Overview

Professional Audio Solution

This professional-grade amplifier features an integrated DVD player, offering a versatile all-in-one solution for audio amplification and media playback. Designed for reliability, it provides comprehensive control over audio output, including individual microphone adjustments and master tone shaping. With robust power output and multiple connectivity options, it is well-suited for diverse audio installation requirements.

Performance Metrics

Rated Power Output

100 W

Rated Power

140 W

Max Power

Frequency Response

50-15000 Hz

Total Harmonic Distortion

Less than 1% at 1kHz

Connectivity & Inputs

Input Impedance

Input Type	Impedance
AUX	20k Ohms
Mic 1-3	600 Ohms

Microphone Inputs

3 channels

Speaker Output Options

4 Ω , 8 Ω , 16 Ω , 2 Ω V, 100V

Physical Specifications

Weight Options

- 10.97 Kg
- 12.35 Kg

Color

Black

Dimensions

45mm (W) x 100mm (D)

Power & Operation

Power Consumption

- 220W at rated output
- 380W at rated output

AC Power Supply

110-127/220-240V AC 50/60Hz
