

# Professional Ceramic Hair Curler with Adjustable Temperature

This professional hair curler is designed for creating a variety of hairstyles. It features ceramic-coated plates for even heat distribution and adjustable temperature settings for customized styling.

## ADDITIONAL IMAGES

## Product Overview

### Professional Ceramic Performance

This professional-grade hair curler is engineered for consistent heat distribution using advanced ceramic-coated plates that minimize friction and enhance hair shine. Designed for versatility, the tool offers an adjustable temperature range of 120°C to 220°C to accommodate diverse hair types and textures. With an ergonomic design and tangle-free swivel cord, this curler provides the precision and comfort required for both professional salon environments and personal styling.
