Overview

Professional Coating Performance

This professional-grade spray gun utilizes H.V.L.P. technology to ensure high transfer efficiency and precise coating application. Engineered with a durable stainless steel nozzle and needle assembly, it provides consistent results for demanding tasks. Its ergonomic design and versatile fluid delivery capabilities make it an essential tool for automotive refinishing and fine woodworking.

Technical Specifications

Performance Metrics

8 CFM

Air Consumption

0.8 mm

Nozzle Size

100 ml

Cup Capacity

Fluid Delivery Rate	90 ml/min
Air Pressure Range	30-43 PSI
Air Inlet	1/4"

Construction & Materials

Build Quality	Brass Air Cap, Stainless Steel Needle, Stainless Steel Nozzle
