

Professional Film Projector

This professional-grade film projector is designed for high-quality film projection. It features a precision optical system and advanced mechanisms for smooth film transport.

Overview

Professional Film Projection Excellence

This professional-grade film projector is engineered for high-performance cinematic environments, including cinemas and screening rooms. It features a robust, durable construction paired with a precision optical system that delivers exceptionally sharp and clear image quality. Designed for reliability, the unit utilizes advanced transport mechanisms to ensure smooth film movement while minimizing wear during operation.

Technical Features

Key Performance Metrics

5535

Model Series

Control Features

- Precision brightness adjustment
- Contrast control
- Sound level adjustment
