Product Overview

Professional Performance and Versatility

This professional-grade hair clipper is designed for precision and reliability, featuring a high-performance 3.7V DC motor and a durable 3Cr13 stainless steel blade system. With a versatile 110V-240V power input and an extended battery life of up to 4.5 hours, it is built to handle demanding grooming tasks including oil head styles, gradients, and detailed carving. The ergonomic design ensures comfort during extended use, making it an ideal tool for both professional barbers and home styling.
