

Professional Hedge Trimmer

This hedge trimmer is designed for professional use. It features a powerful engine, durable blades, and an ergonomic handle.

Product Overview

Professional Hedge Trimmer Overview

This professional-grade hedge trimmer is engineered for efficiency and durability in landscaping applications. Powered by a reliable single-cylinder air-cooled 2-cycle gasoline engine, it delivers consistent performance for shaping and maintaining hedges. The double-sided blade design ensures clean cuts, while the ergonomic construction supports extended use.

Technical Specifications

Blade Length	600 mm
Blade Configuration	Double sided

Engine & Performance

Engine Type	Single cylinder air cooling 2-cycle gasoline engine
Displacement Volume	25.7 cm ³
Fuel Tank Capacity	650 cm ³
Fuel Mixture Ratio	25:1 (Lubricating oil mixed gasoline)

Operational Features

Starting Method	Recoil starter
Transmission Method	Automatic centrifugal clutch spur gear, cam-crank

Physical Dimensions

Weight	16.5 kg
Dimensions (L*W*H)	1010*230*220 mm

Compliance

Certifications	CE, GS
