

Professional Hot Air Gun with Variable Temperature Control

This professional hot air gun is designed for various applications including paint removal and heat shrinking. It features variable temperature control and overheat protection.

Product Overview

Professional Performance and Reliability

This professional-grade hot air gun is engineered for rapid heat-up and consistent, reliable performance across a variety of demanding applications. Featuring a high-temperature resistant heating wire and a high-power, low-noise fan, it ensures efficient heat gathering and stronger air output. Designed with safety and ergonomics in mind, it includes overheat protection and a stable base for hands-free operation, making it an ideal tool for both professional tradespeople and DIY enthusiasts.

Technical Specifications

Heating Element	High-temperature resistant heating wire
Fan Characteristics	High power, low noise

Features

Safety Features	Overheat Protection, Stable Base, Hands-free Operation
-----------------	--

Applications

Suitable Applications

- Automobile film application
- Welding pipe
- Photo plastic film
- Thawing frozen pipes
- Paint removal
- Heat shrinking
- Loosening rusted bolts
