

Professional Paint Brush with Black Bristles

This paint brush features pure black boiled China bristles that are extra thick and long, set in epoxy compound. It has a deep green varnished plastic handle with a yellow tip and a brass plated ferrule.

Product Overview

Professional Grade Application

This professional-grade paintbrush is engineered for the smooth and even application of various paints and coatings. It features high-quality black bristles designed for excellent paint retention and release, ensuring a superior finish. The ergonomically designed handle provides a comfortable grip, reducing fatigue during extended painting sessions. Built for durability, this brush is suitable for both professional painters and DIY enthusiasts, handling everything from fine detail work to large surface coverage.
