

Professional Studio Monitor Speaker

This professional studio monitor speaker is designed for critical listening and mixing applications. It features a two-way bass-reflex design with a 5-inch cone woofer and a 1-inch dome tweeter.

Overview

Professional Monitoring Precision

Designed for critical listening and mixing, this two-way bi-amplified bass reflex monitor offers reference-quality reproduction. Its compact design makes it an ideal solution for project studios and DAW-based production systems that require reliable performance. With advanced magnetic structures and a low-diffraction baffle, it ensures smooth, uniform dispersion and exceptionally low distortion for both stereo and surround formats.
