

Professional Tire Changer for Automotive Workshops

This professional tire changer is designed for efficient and safe tire removal and installation. It features a robust construction for durability and long-term performance.

Product Overview

Efficiency and Precision in Tyre Maintenance

This professional-grade tyre changer is engineered for automotive workshops that demand efficiency and safety. It features a self-centering clamping system and a robust mechanical design to handle intensive daily usage. With adjustable mount/demount tool settings and ergonomic pedal controls, this unit simplifies complex tyre service tasks while ensuring consistent, high-quality performance.

Technical Features

Key Operational Capabilities

- Self-centering clamping system
- Stepping function for clamping
- Adjustable and calibratable mount/demount tool angles
- External locking mechanism for hexagonal shaft
- 3-foot-operation pedals for ergonomic control

Protective Equipment

Plastic protector for mount/demount tool, Optional wear-resistant washer

Accessories and Options

Available Add-ons

Assist arm AL-340 • Motorcycle adapter • Customizable colors
