

Professional Tire Changer Machine

This professional tire changer is designed for safe and efficient tire removal and installation. It features a robust construction with a powerful motor and pneumatic system for handling a wide range of tire sizes.

Product Overview

Professional Tire Changer Utility

This automatic tire changer is engineered for reliability and high performance in professional automotive service environments. It features a robust pneumatic column tilting system and a specialized steel mounting head designed for wear resistance and durability. With an adjustable turntable capable of handling 11" to 26" rims and a high-power bead breaker system, this machine efficiently manages low-profile and stiff sidewall tires.

Technical Specifications

Rim Clamping (Outside)	11-24 inches
Rim Clamping (Inside)	13-26 inches
Max Wheel Diameter	1040 mm
Bead Breaker Force	2500 kg
Working Pressure	8-10 bar
Noise Level	75 db

Key Features

Advanced Capabilities

- Pneumatic column tilting and locking
- Arc shovel design blade for 360-degree rotation
- Wear-resistant, unbreakable special steel mounting head
- Removable pedal cover for easy maintenance
- 41mm hexangular and 50mm square shaft for high bending strength

Logistics

Shipping and Weights

Item	Value
Net Weight	260 kg
Gross Weight	295 kg
Packing Dimension	1100*860*1020 mm

Service & Warranty

Warranty Period	12 months
